This Week's Highlights

Year 10 and Year 11 Exam Block

This week Year 10 and 11 students have exam block. Please ensure that you and your child are aware of the schedule and pay particular attention to when and where their exams take place. A reminder that during the exam week, all exams will take priority over all other school commitments such as school-based apprenticeship, trade training days or any other commitments they may have during this week. If your child cannot make an exam due to illness, you will be required to contact the school with your absence and provide a medical certificate on return to school.

Year 6 Camp

Our Year 6 students leave for their long-awaited camp at QCCC Mapleton early tomorrow morning. This extended 4-day camp will focus on adventure activities, building friendships, exciting challenges, personal growth and gratitude. Students are excited to have this opportunity to extend their learning environment in such a beautiful natural setting.

Healthy Study Habits from School TV

In today's world, where distractions are plentiful and the pressure to succeed is high, helping children develop healthy study habits is more important than ever. Academic success depends not only on intelligence and motivation, but also on the habits students build over time. Good study habits are not simply about spending more hours studying. Instead, the focus should be on quality, consistency, and balance. Establishing regular study times creates structure and discipline, making study a natural part of daily life rather than a burden. Just as important is how students approach their study sessions. Regular breaks help maintain concentration and prevent burnout. A healthy lifestyle, including adequate sleep, good nutrition, and regular physical activity, also plays a vital role in effective learning. Encouraging these habits provides children with a strong foundation for lifelong learning and success. This Special Report will help you support your young person as they embark on studying for exams. ***Healthy Study Habits***

BYOxLink Program – Student Laptops

If you are looking to purchase your child a laptop for next year, please visit our college website for information regarding minimum specifications, supported devices and some help with purchasing. If you purchase a machine and need it connected, there are also steps and videos on how to connect the device from home. We ask that all students that are capable of connecting from home do so, it would mean that they are ready for day one learning with their devices. Please contact the college if you have any questions or concerns. Link to the website: ***Computers and Technology***

Families intending on Leaving

If your family will be leaving our college at the end of this year, please ensure you contact the college and complete release paperwork. This form is available on our website Click Here or collect from the college administration buildings. The release form requires information regarding the final date of attendance at KWSC, student destination school and forwarding address.
