

## Principal's Welcome

Welcome to Kawana Waters State College for 2009, the Year of the Ox.

We have enrolled a strong number of new students both local and international. Across our two campuses our numbers are just under 1400 students which makes for a very busy college. Our support team for each year level have been busy welcoming new students and families and ensuring that all students feel safe and well organised to focus on our core business of learning for 2009.

One of our key priorities for our College for this year is to continue the focus on high quality teaching and learning across the three Phases of Learning - Early Years, Middle Years and Senior School. The benefits of coordinated planning, Professional Development, Curriculum Development and engaging our broader school community from Prep to Senior are maximised by a focus on the broad continuum of this educational journey for our students and families.

Kawana Waters State College is committed to preparing students for a changing and more globalised world which will ensure our students are prepared for the 21st Century.

John Lockhart  
College Principal
