This program is designed to provide school-based football development opportunities for talented and motivated junior footballers. Junior Football Program participants can apply from any primary school and will participate in a range of football and futsal skill development sessions with other students of similar ability.

The aim of the Junior Football Program is to provide footballers with targeted training to improve their technical ability. These sessions will be focused on skill acquisition in the four core skills; first touch, running with the ball, striking the ball and 1 v 1. These sessions focus on ball mastery and promote good football habits in students. Throughout the sessions, students will be challenged and extended in their personal football development.
