Applications are due by Wednesday April 22, 2026

Program Overview

This 4 week Program beginning on May 6, is designed to provide primary students who are interested in dance as a subject in the secondary phase of their education, a unique insight into the Excellence Program. The aim of the Junior Dance Program is to provide young dancers with targeted training to improve their technical skills in styles of contemporary, ballet and jazz. Sessions will focus on technique and the development of expressive skills. Throughout these sessions, students will participate in technique lessons and learn choreography that will challenge and extend their personal dance development.
